

STRAYAID AI — TEAM MEMBERS

Team Member	Role	Explanation
Shaksham	Documentation & Reporting Team Leader	Maintains the project's documentation and reports. Coordinates the team, assigns and follows up on work, and keeps track of the overall project progress.
Arpita	Coder	Develops and organizes the website, writes and manages the code, and implements the project's AI-related features.
Sidharth	Data Collector	Collects, organizes, and prepares the images and other data required for training and demonstrating the AI model.
Shubham	Tester	Tests the website and its features, checks whether everything works correctly, and identifies errors or issues that need to be fixed.
Yash	Video Editor	Edits and organizes the project's video content, ensuring that the final video is clear, engaging, well-structured, and suitable for presentation.
